

Membership for Academic Research Groups

«The Swiss Chemical Society represents chemists and scientists of chemistry related fields in Switzerland and in international organizations, supports the scientific know-how exchange and offers corresponding network possibilities.»

Mission Statement SCS 2012

High accessibility of our target groups and the understanding of their needs is a crucial factor to reach your goal to be an important partner for Universities, R&D from Industry and our international partner organizations.

Students are the future of our society and accordingly we would like to attract as many young community colleagues as SCG members. In addition, we would like to maintain active contact with all academic research group heads, so that we can cover the needs of all and actively stimulate the exchange between academia and industry.

With the possibility of a collective membership for research groups from Universities we offered an easy and attractive access for all academics to the SCS.

Conditions

- individual registration of all group members as SCS member (scg.ch/membership)
- annual update of the group members and their affiliation
- one printed CHIMIA for the group and e-access for all group members
- one, consolidated invoice to the group head

Membership Fees

- | | |
|---|---------------------------------|
| ▪ Regular membership for individuals | CHF 150.00 |
| ▪ Membership for bachelor, master and PhD students | CHF 50.00 |
| ▪ Collective membership for research groups ¹⁾ | 15% discount on individual fees |

¹⁾ at least five persons whereof one group head that work in the same research group
